

HELPER II K210

AEROSOL

NON FLAMMABLE, PENE-
TRANT,LUBRICANT, DEMOISTUR-
ANT

DESCRIPTION

*Helper II is a fast acting **PENETRANT** that quickly cuts through dirt, rust and scale to creep into parts which have become frozen by or encrusted with corrosion and oxidation. Provides a long lasting **LUBRICANT** which loosens dirt, rust and other corrosive elements, reduces friction and will not become dry, brittle or hard. Helps dry out wet electrical gear and other water sensitive parts. Prevents surface deterioration by acting as a **DEMOISTURANT**, which with its unique molecular film, seals out water on all treated surfaces. Preserves equipment life and efficiency, thus reducing repair and maintenance costs. Can be used on either wet or dry surfaces. A true multi-purpose spray **PROTECTANT** that provides a shield-like film against the harmful effects of moisture and corrosion.*

FEATURES

- PENETRATES** - “Creep” characteristic allows deep penetration to remote parts.
- LUBRICATES** - Low Coefficient of friction gives lubricity to metal-to-metal parts. Stops squeaks.
- HELPS REMOVE RUST** - Makes existing rust and corrosion easy to remove.
- INHIBITS CORROSION** - Ultra-thin greaseless film protects metal parts and surfaces from attack by rust or corrosion.
- DISPLACES MOISTURE** - Gets under moisture driving it to the surface where it evaporates.
- CLEANS** - Detergent action loosens dirt, scale, corrosion, gummy deposits.
- SEALS** - Seals by reducing friction and making tighter joints possible.
- RESISTS MOISTURE** - Lubricates under wet or steamy conditions - will not “wash out.”
- TEMPERATURE STABLE** - Works at extremes of temperature.

Helps free rusted nuts, bolts. Eliminates problem of seized broken parts. Prevents costly labor loss and downtime. Speeds up assembly and disassembly. Eliminates metal-to-metal electrolysis. Disperses heat - ideal for drilling. Never separates - never hardens. Protects against carbon fusion in diesels. Eliminates thread galling. Resists most chemical and acid vapors, road salt, steam, salt water, alkaline solutions. Harmless to paint lacquer, plastics, rubber, fabric, and painted surfaces.
