

DESCRIPTION

This touch free hand sanitizing system automatically dispenses a high quality alcohol based hand sanitizer to stop the spread of germs. Just put your hands under the dispenser and it automatically dispenses an appropriate amount of hand sanitizer without touching the dispenser. Powered with 60%V/V ethyl alcohol this gel cleaner is effective against Staphylococcus, Pseudomonas, Salmonella as well as other pathogenic organisms. No water source is necessary with this product...it simply evaporates from the skins surface. Left behind after evaporation are a combination of effective skin conditioning emollients that leave your skin feeling fresh and clean.

FEATURES / USES:

- Touch free dispenser eliminates cross contamination between users.
- Metered dosing of product provides over 500 applications per cartridge.
- Cost per application is under 3¢ per use.
- Superior electronics extend battery life...over 130,000 applications.
- Uses ordinary D cell batteries, (included with each dispenser)
- 60% ethyl alcohol formula kills pathologic germs better than washing with soap.
- Emollients leave your skin moisturized as well as fresh and clean.
- Refills can be used without the dispenser.
- Reduces nosocomial infections.
- Electronic delay deterrent avoids abuse and waste.
