

Ice-Melt Crystals

Clear Path uses the heating action of calcium chloride to activate the melting action of rock salt for deep ice penetration at very low temperatures. Each crystal combines the exact ratio of rock salt and calcium chloride for maximum efficiency. With *Clear Path*, you know you will have both consistent and superior results with every application. The power of the di-crystal process simply gives the best results available, with the best overall value.

FEATURES & BENEFITS

- More Effective Than Expensive Pure Calcium Chloride Flake, & Produces Near Similar Results To Much More Expensive Pellets
- Requires Much Less Product Than Sodium Chloride
- Effective To -15°F
- Penetrates Ice, Faster & Deeper, Than Sodium Chloride Or Calcium Chloride Acting Alone
- Higher Efficiency Means Reduction Of Total Chlorides Into Environment
- Easy To Handle & Store

USES

Driveways * Parking Lots * Gutters * Sidewalks * Steps
Paths * Drains * Down Spouts * Concrete Asphalt
Loading Platforms * Railway Switches
